Work Experience

Fullstack Developer — Xentrix Hi-tech Pvt Ltd

Aug 2023 - Present

- Built responsive web applications using React.js and Next.js for e-commerce and dashboard platforms.
- Created reusable React.js components and Next.js pages to accelerate feature development and maintain consistency across applications.
- Collaborated with cross-functional teams to deliver responsive web applications from development through deployment.

Intern — Xentrix hi-tech pvt Ltd

Sep 2023 - Dec 2023

- Participated in the development of a medical insurance claims application, ensuring smooth operations for the client.
- Gained practical experience in using MERN Stack tools and enhanced collaborative skills within a team environment.

Internships

Medical Insurance Claim IME — Xentrix hi-tech pvt Ltd

91 Days

- Developed and implemented features for medical insurance claim applications during internship.
- Enhanced application performance by applying optimized coding standards and best development practices.

Projects

AI Report Generation for IME

245 Days

- Designed and developed a medical insurance claim application utilizing the MERN stack, enhancing claim processing efficiency.
- Implemented new features and collaborated effectively using Git for version control and Postman for API testing.
- Optimized application performance and enhanced user experience through targeted improvements and testing.
- Utilized Next.js, Node.js, PostgreSQL, Gemini API, and Google Cloud Platform (GCP) to deliver scalable and robust solutions.
- Teck Used : Next.js, Postgres, Node js, Gemini API, GCP

Medical insurance claims (IME)

519 Days

- Developed a medical insurance claim application for the client using the MERN Stack.
- Engaged in implementing features using Git and Postman for collaboration.
- Focused on improving application performance and user experience.
- Teck Used : React.js, Node js, Express, Postman, MongoDB, Github, Vercel, Render

Custom Textile Design Platform

151 Days

- Created an online textile customization platform with dynamic design tools and order management features.
- Improved customer engagement through an interactive and responsive user interface.
- Teck Used : React.js, Node js, Express, Postman, MongoDB, Github, Vercel, Render

Education

B.Sc | Computer Science and Technology

Alagappa University
Marks - 82%

2023
